

Alen T300 Tower Air Purifier

The Alen T300 tower air purifier delivers style and performance. Unlike many other tower designs, the Alen T300 is an Allergy-HEPA air purifier with advanced features such as a UV lamp for bacterial control and activated carbon filters for enhanced odor removal.

The T300 has affordable replacement filters that are easy to change, eliminating the need to come in contact with the very particles you want to avoid. With ionic-type tower units, you come in contact with those particles with each cleaning.

The T300 is a great choice for those who want a sleek design without sacrificing performance.

Key Features:

- Pre-filter/Allergy-HEPA Filters
- Enhanced activated carbon filter for even greater odor removal
- Effectively removes smoke, pollen, dust, animal dander, dust mites, molds, bacteria and viruses
- UV lamp for bacteria removal
- 4 fan speed settings
- 12 hour timer
- Built-in ionizer minimizes pollutants and produces no ozone
- Filter replacement indicator
- Digital display with simple and intuitive touch button control
- Unique safety feature has power auto-off protection when cover removed

Specifications:

- Filter type: Allergy-HEPA
- Energy Consumption: 65W
- Room Size: Up to 300 square feet; 225 square feet for optimal performance
- Unit Size: 11" x 9" x 28"
- Unit Weight: 12 lbs
- Lifetime Warranty
