

## E-333 MINI DEHUMIDIFIER

### KEY DEHUMIDIFIER BENEFITS:

- Absorbs 4-6 ounces of moisture
- Works in a 333 cubic ft. area
- Space saving
- 100% renewable
- Lasts 10 years
- No batteries or cords required
- Spill and mess free
- It takes approximately 10-12 hours to renew the unit
- Child and pet safe
- Eco-Friendly

The mini dehumidifier has been designed to absorb moisture from small enclosed areas. It will help protect clothes and valuables from the damaging effects of mold/mildew and moisture rot. It is 100% renewable and needs no power to operate. Place the Eva-Dry unit in a closet or any small, enclosed space, and it will start to absorb moisture immediately.

### EFFECTIVE INNOVATION TO ELIMINATE DAMPNES

There is an indicator window with special "Color Changing Crystals" that change from blue (when dry) to pink (when wet) to indicate when the unit needs to be "renewed." The unit will absorb approximately 4-6 ounces of moisture (depending on humidity levels this should take approx. 3-5 weeks). Once the moisture has been absorbed it cannot leak or spill. This unit uses a specially engineered, crystallized silica gel that is odorless, non-toxic, Eco-Friendly and completely safe.

When the "Color Changing Crystals" turn pink it is time to "renew" the unit. Simply remove the unit from where it is and plug it into a power outlet in a well ventilated area (patio, garage, outside area, etc). The worldwide-patented technology will warm the crystals allowing them to expand and release the moisture as water vapor into the outside air. It takes about 10-12 hours to completely "renew" the unit. When it is completely renewed the indicator crystals will change back to blue and the unit is ready to absorb another 4-6 ounces of moisture. The crystals will remain active for 10 years if used correctly, and we offer a 5-year limited manufactures warranty on all E-333 units.

### SPECIFICATIONS

Name of product: Eva-Dry mini dehumidifier  
Style Code: E-333  
Size: 6 1/4"L x 1 1/4"W x 4 3/4"H  
Color: White Sand  
Packaged: Individual Clam Shell  
Master CTN: Total of 24 pieces

Individual weight: 1 lb. 2 oz.  
Master CTN Weight: 35 lbs.  
Master CTN Size: 19 1/2" L x 11 3/4" W x 19 1/2" H  
UPC: 832856000060  
Minimum Order: 1 Case Pack  
Warranty: 5 YEAR Limited Warranty

## E-500 HIGH CAPACITY DEHUMIDIFIER

### KEY DEHUMIDIFIER BENEFITS:

- Absorbs 6-8 ounces of moisture
- Works in a 500 cubic ft. area
- High Capacity
- 100% renewable
- Lasts 10 years
- No batteries or cords required
- Spill and mess free
- It takes approximately 12-16 hours to renew the unit
- Child and pet safe
- Eco-Friendly

The high capacity dehumidifier has been designed to absorb moisture from small enclosed areas. It will help protect clothes and valuables from the damaging effects of mold/mildew and moisture rot. It is 100% renewable and needs no power to operate. Just hang the Eva-Dry unit in a closet, or any small-enclosed space, and it will start absorbing moisture immediately. There are no batteries required or cords to plug in.
