

Portable DEHUMIDIFIER

with Humidistat

Soleus Air introduces its new line of Energy Star rated portable dehumidifiers. Light weight and heavy duty casters allow our ultra portable dehumidifiers to be moved and placed almost anywhere. Keeping with our tradition of making energy efficient products, we created this new line of dehumidifiers to adhere to all Energy Star dehumidifier standards. In addition to portability and energy efficiency, we've added the low temperature operation to our feature packed dehumidifier line. Low temperature operation allows the units to operate in a basement all year round without freezing up and shutting off.
