b.) Allergy Armor Basic Encasement

Looking for an inexpensive but effective solution to dust mites and other allergens in your box spring? Naturally water resistant, Basic box spring covers are a low maintenance and hassle-free way to protect your box spring while keeping you sleeping better and feeling better. **\$15.99 - \$39.99**

c.) Allergy Armor Ultra Comforter

How do you protect a comforter with allergy bedding but not add weight or the worry of the comforter shifting inside the cover? You make a comforter with a dust mite barrier already sewn in! With the new Allergy Armor Ultra Comforter, we have done just that.

Starting with Allergy Armor Ultra fabric, which offers the smallest average pore size in the industry, we created a comforter that no longer requires an allergy cover. Warm and filled with just the right amount of non-allergenic

polyfill, the Allergy Armor Comforter has a boxed construction to keep the fill in place even with frequent washings. Sewn-in loops allow for you to easily tie your decorative duvet cover to this allergy comforter, and without the need for a separate allergy cover, there's no additional weight. **\$179.99 - \$249.99**

Miele

AutoEco Upright Vacuum

The Miele AutoEco S7580 Upright Vacuum Cleaner (formerly the Miele Bolero) is a top of the line Miele upright vacuum cleaners. The Active HEPA filter and the new spring-loaded, self-sealing dust bags are ideal for allergy sufferers who want to limit exposure to dust, pet hair and other allergens. From the strong, deep black color to the creative swivel-neck design to the incredible 55 foot cleaning radius, Miele has developed a revolutionary new upright vacuum. For those Miele fans that love the convenience of their canister vacuums, the AutoEco retains the versatility of the Miele canister line with the powerful carpet cleaning capability of an upright. While cleaning carpet is easy with the Auto-

Eco, a separate motor for the roll brush gives you the straight suction capability needed for cleaning smooth surfaces.

The AutoEco is one of your best choices for a durable and modern vacuum that is best equipped to handle all of your vacuuming and above-the-floor cleaning needs. In recognition of this, Consumer Reports ranked the Miele AutoEco 5th in value in its class among all comparable upright vacuum cleaners.

travel humidifier

One of the few truly portable small humidifiers, the Air-O-Swiss 7146 is a lightweight solution to dry air wherever you go. This compact, travel humidifier will fit in a travel bag, most purses or briefcases, or simply in your pocket. There are no tanks to fill. Instead, you insert into the unit a 16-20 oz. water bottle that you can purchase nearly anywhere. Then, you plug in the AOS 7146 and enjoy moist, healthy air anywhere you may be.

While at work, visiting family or simply traveling, the Air-O-Swiss 7146 is the perfect solution for dry air wherever you go. When you are finished, wipe the unit down before storing. Most bottled water is distilled or purified, but if sediment or mineral buildup is a concern EZCal Cleaner will work just as well with the 7146 as with any Air-O-Swiss humidifier.
